Rowan county progressives have decided to put out a full county ticket.

The Customs Court at Washington has decided that horse radish roots should be admitted free of duty as a "vegetable substance" and not a "vegetable."

Nearly 1,500 commissioners, representing 2,000,000 members, are meeting in Atlanta this week to consider the amalgamation of four branches of the Presbyterian church.

Mr. Glover was let off with a reprimand when he went before the House and said he was sorry he slapped Representative Sims. Mr. Sims made no remarks, but he too was probably sorry.

An attempt by two women to frame up a scandal charge against Lieut. Gov. O'Hara, of Illinois, failed when the women were brought forward to swear to their charges. O'Hara proved an alibi.

Other people have more confidence in Dr. Friedman's remedy than the doctors who have hounded him out of Washington and forced him to turn to state laws for recognition. This is especially true of those who have been cured of tuberculosis by his discovery, while the "investigators" have been trying to secure his secret.

Secretary of State Bryan Saturday night formulated a message to Gov. Johnson, of California, setting forth the objections of Japan to the anti-alien land law, and virtually calling upon Gov. Johnson to veto the bill to avoid international complications. The bill must be acted upon by today. Japan has in effect threatened a rupture of friendly relations unless something is done.

English Suffragettes are threatening violence that will eclipse anything in history. The authorities have secured evidence that many former constitutional suffragettes have joined the militant body since the defeat of the woman's suffrage bill. There is no question that the number of the militants is growing larger. Damage to property in the British Isles caused by militant suffragettes during the past three months amounts to more than \$5,000,000, according to an official estimate made by authorities at police headquarters in Scotland Yard. To this they say must be added the increased cost of protecting lives and property. Three detectives have been assigned to watch over every member of the cabinet at all times, while all suspected persons are shadowed by plain clothes men, and all public buildings have been placed under special guard. Figured at this rate the suffragette activities are costing the country at least \$25,000,000 a year.

OPENING
GAME TODAY

Season of The Kitty Baseball League Begins With Games In Four Towns.

OWENSBORO PLAYS MOGULS.

Half Holiday Proclaimed and Merchants Generally Will Close During Game.

The 1913 season of the K. I. T. Baseball League formally opens today in four of the eight towns in the league. Owensboro will play here, the first of a series of three games.

Most of the merchants will close their stores from 3 to 5 p. m. this afternoon, upon the proclamation of a half holiday by Mayor Meacham. The crowd is expected to break all records. The highest attendance heretofore has been something less than 1500.

Hopkinsville starts the season with the best team it has ever had at the beginning of a season. It is especially strong in the pitchers, catchers and infield. The weak spots are in the outfield, but the fielders who are somewhat lacking in field work are heavy hitters and all in all the Moguls are in fine trim for the opening series.

The game today will be the first of a series of three games with Owensboro, the others following Wednesday and Thursday.

As nearly as it can be foretold at this writing, the line-up will be as follows:

OWENSBORO	HOPKINSVILLE

W. T. RADFORD
TO ENTER NAVY

Senator Bradley Names Him For a Midshipman Vacancy.

EXAMINATION ON JUNE 5TH.

Is a Son of Circuit Clerk W. A. Radford and Is a Democrat.

Senator Bradley on Saturday appointed W. T. Radford, of this city, principal, and F. F. Harris, of Versailles, alternate, for midshipman in the naval academy. He said:

"Since I came into office I have nominated four candidates for midshipman at Annapolis. One of these failed to appear for examination; two failed to pass both examinations, though each passed one; and one passed both examinations who there after resigned. Although I have been in office more than four years I have never succeeded in making a successful appointment to Annapolis.

"The examination is very severe and technical and has not been passed, with but very few exceptions, unless the candidate had attended a naval school for twelve months at least. The next examination will take place June 5, and in the event of failure of the candidate to pass the right to appoint will lapse and Kentucky will lose the place.

"In view of the peculiar conditions existing I thought the only wise and safe course to pursue would be to appoint Kentucky district applicants who have successfully passed the examinations as alternates, but could not be appointed because their principals passed also. I have therefore appointed William Tandy Radford, of Hopkinsville, as principal, and Thomas Field Harris, of Versailles, as first alternate."

The examination will be held June 5. Young Radford is a Democrat and is a son of Circuit Clerk Walter A. Radford and entered the West Point Military School last fall, but failed in January by a narrow margin in English. Since that time he has been under special instruction and hoped to be reappointed, but Senator Bradley tendered the appointment to the naval academy, which he will accept. His friends feel sure that he will pass all examinations. His alternate has already passed the mental examination, as stated by Senator Bradley.

AT CROFTON
TOMORROW

S. S. Convention at Crofton Will Be Well Attended.

TRAIN ARRANGEMENT O. K.

All the Schools of the City Urged To Send Representatives.

The Christian County Sunday School Association will meet in annual session at Crofton tomorrow morning at 10:30 o'clock. On Tuesday night, after devotional exercises, conducted by Rev. J. S. Mitchell, Rev. T. G. Gebauer, field worker, will deliver an illustrated lecture in the Christian church. There will be no charge for admission.

The sessions will open Wednesday morning at 10:30 o'clock, with devotional exercises.

The officers are:
Douglas Gray, President, Pembroke.

R. A. Rogers, Vice President, Hopkinsville.

Mrs. G. D. McComb, Secretary, Pembroke.

DEPARTMENT SUPERINTENDENTS.

Miss Mary Walker, Elementary Department.

Mrs. Ida Chappell, Secondary Department.

H. H. Abernathy, Adult Department.

Mrs. H. D. Smith, Home Department.

A. C. Kuykendall, Education.

Miss Katie McDaniel, Organization.

Miss Emily Kelly, Missions.

H. Clay Smith, Temperance and Purity.

The President, Douglas Graham, will deliver the address of greeting.

Those from Hopkinsville who are on the program are:

Rev. Geo. C. Abbott, Mr. Fred Harned, Judge W. T. Fowler, Mrs. H. D. Smith and Mrs. Walter Harned.

It is very much desired that every Sunday School in the city send as many representatives as possible. Christian county's assessment this year is \$150—5 cents for each officer and teacher and 3 cents for each scholar.

The people of Crofton will serve dinner free to all who attend. Crofton has a large Sunday School and it will do its best towards making things pleasant for all. Everybody that can ought to go. You can go down on the regular 9:52 train and return on the 5:32.

Weather For Present Week.

Showers will probably occur in the south during the first half of the week, followed by fair weather during the latter half, according to the weekly weather bureau. Normal temperatures will prevail.

CHILDREN IN
MAY FESTIVAL

Friday Will Be Gala Day With The Public School Children.

DRILLS IN PRETTY COSTUMES

Unique Exercises to Develop Youngster's Unused Muscles.

On Friday, May 16, 1913, at 3 p. m. on the Virginia St. school grounds a May Festival will be held. The practice for this gala day goes on daily and the improvement each day is marked. The audience will enjoy the finished work but the children have derived great benefit and pleasure from this rhythmical training. Several muscles are being developed that heretofore have been unused. In beginning this work the teachers found that some children couldn't skip, some couldn't hop, some couldn't bend and others couldn't bow. (The boys have found great trouble in locating their hearts when they bow.) Before next week arrives the children will be doing all these things well and the people of Hopkinsville, whose interest and loyalty to the schools is unparalleled, are urged to attend and encourage the children by their presence.

The children in costume will give the peasant dances, which are most characteristic of certain foreign countries. Very quaint indeed are the Little German Maids in their Cap Dance; the Norwegian in gala attire form a charming picture; the Hansels and Gretels hand-in-hand picture a holiday scene from the Fatherland. Other interesting features will be announced later.

The enthusiasm and practical help from parents and children have more than repaid the teachers for their extra hops and skips they have taken.

The purpose of this entertainment is to secure funds for the play ground appliances and other physical training work.

Recently no acting bar and a few other simply play ground appliances have been installed and the investment has been so profitable that it has stimulated the mothers and teachers to strive to secure other and better equipment.

FRIEDMANN'S ENEMIES SPEAK

Admit Therapeutic Value of His Cure But Object to His Methods.

Washington, May 9.—Public health observations so far into the condition of patients inoculated with the Friedman tuberculosis vaccine by the German doctor "do not justify that confidence in the remedy inspired by the widespread publicity it has received," in the opinion of the surgeons who conducted the government investigation.

The first official conclusion from the tests is announced by John F. Anderson, director of the government's hygienic laboratory, and Dr. Stimson, who were detailed to observe the condition and progress of Friedman's patients at the hospital in New York.

After stating: "We are not yet in a position to express our opinion, based on the present condition of the patients under observation," the report says:

"Time is extremely necessary in order to properly evaluate the effect of therapeutic measures.

"We must not lose sight of the possible therapeutic value of this preparation and on the other hand it is necessary to guard against too great optimism in regard to its merits."

\$40,000

Railroad Contract Awarded Meacham Contracting Company.

The L. & N. R. R. has awarded the Meacham Contracting Company the contracting for all the concrete work in connection with the new Tie Treating plant to be established at Guthrie. The contract amounts to about \$20,000, the foundations, floors and roof of a large building being of concrete and a retaining wall about 1000 feet in length. The Meacham Co. also has the contract for grading the storage yard, which is about half mile in length, at a cost of \$18,000.

The company has leased a portion of the Guthrie Fair grounds for a camp site for men and teams and will have a force of about 60 men and 50 mules engaged on the work all summer.

Mrs. Thos. W. Long entertained Friday afternoon in honor of Mrs. Phil Pointer, who is visiting Mrs. T. J. McReynolds.

SENATOR BRADLEY SEEKS
LAD FOR NAVAL ACADEMYAt His Wits' End, For One
Applicant Failed To Pass
The Test.

Washington, May 9.—"Wanted—
A Kentucky youth who can pass the
entrance examinations to Annapolis."
—W. O. Bradley.

The above ad represents the state
of Senator Bradley's mind. He is
extremely desirous of finding a boy
who can take advantage of the va-
cancy in Kentucky's Naval Academy
allotment over the failure of Robert
G. James, of Louisville, to pass the
physical examination. Young James,
who is the son of R. I. James, passed
the rest of the tests, but failed on
the physical test because of a disease
of the teeth. Under treatment his
defect may be overcome within a
year.

"These examinations are very se-
vere," said Senator Bradley. "The
minimum and maximum ages are 16
to 20; minimum height, five feet four
inches; minimum weight, 105 lbs."

EASY WAY TO MAKE \$25,000

Prove This Simple Little Mathemat-
ical Proposition and the Next
Fortune is Yours.

Readers who are especially gifted
in mathematics will be interested, if
not allured, by the apparently simple
way to make a fortune that the Lon-
don Sphere points out.

Twenty-five thousand dollars
awaits the student who will prove a
proposition of the French mathemat-
ician, Fermat, who lived about
250 years ago. The prize will re-
main open to all comers for a cen-
tury.

Prof. G. A. Miller, who told of it
in a recent address on modern math-
ematical research, not unreasonably
fears that such a large inducement
may set all sorts of mediocre mathe-
maticians to wasting their time on
the problem.

The proposition to be proved is
that the sum of no two powers except
squares is itself a power of the same
degree. Sums of squares are often
squares. For instance, the square of
three is nine, and that of four is six-
teen. Add sixteen and nine and you
have twenty-five, which is the square
of five. But this has never been
found to be true for cubes or fourth
powers, or any powers above squares,
and Fermat asserted that no such
cases would or could be found.

He proved it, too—at least he said
he had done so—but his proof is
lost, and no one has ever recovered
it or discovered another, although
proofs have been found for definite
powers. Some of the world's great-
est mathematicians have worked on
the problem.

Onoto Watanna, who writes Jap-

gum-chewing, be-puffed and hobbled
blonde. A day or two ago this cap-
able young person came to the word
"maudlin" in a page of copy which
she was transcribing. On the type-
written sheet this word appeared as
"mandolin."

"Did I write that word?" the au-
thor asked the typist.

"No, you didn't," said the other,
with evident pride in having caught
and detected an error. "You wrote
it 'm-a-u-d-l-i-n,' but I seen it and
changed it."

"Yes, but that is the way I want
it written, 'maudlin' and not 'mandolin,'" insisted the author.

"Oh, I understand now," was the
answer. "I play the mandolin my-
self, and I see now the other's the
Japanese word for it."

Kansas Farmer Wins Friendly Argu-
ment Relative to Merits of Iowa
and Kansas.

Two farmers, one from northern
Kansas and one from the swamp
drained section of Iowa, got into a
friendly argument about the merits
of their respective states. It was
on a homeseekers' train bound for
southern Texas. A crowd of excu-
sionists soon gathered to listen.

"Kansas raises more wheat to the
acre than any state in the Union,"
said the Kansan.

"Iowa beats the world for corn,"
replied the Iowan.

"Kansas is the wealthiest state,"
retorted the Jayhawker.

Back and forth the statistical
statements flew until both men's
supplies were exhausted. The Iowan
had scored last and the Kansan
looked glum. Then one of the listen-
ers went to his assistance.

"I'm a Kansas man myself," he
said. "You've forgotten our educa-
tional facilities."

"There you are," shouted the Jay-
hawker, now jubilant. "No states
can beat Kansas for educational fa-
cilities. Why, we have more school-
houses per capita than any state in
the world."

That won the argument.

BUOYS LIGHTED BY WIRELESS

German Inventor Declares That Cur-
rents Properly Attended Will
Turn on the Light.

A German inventor, Grimmeisen,
claims to have found a method for
using wireless waves in the best man-
ner for lighting up distant lamps,
either electric or gas lamps, by the
use of an accurately tuned wireless
receiver at each lamp so that it is
sensitive to only one wave pitch and
no others.

The wireless waves act upon a re-
ceiver combined with a local relay for
working an electromagnetic
switch so as to turn on the current
or gas as the case may be.

This idea is in itself not a new
one, as we are already familiar with
wireless distant control devices, but
the originality lies in the close tun-
ing of the receivers so that only a
given wave frequency will work
them. The device will thus be a val-
uable one for seacoast lights, and
especially for light buoys.

Before this sea cables were run
from the buoys to shore so as to
stand the severe strain of the waves.
on the new plan a battery can be
used in the buoy, and the current be
turned on by wireless.

"Why, yes, mother. You know I
pray for God to bless father and
mother, brother and sister and 'Old
Man Snuckles.' Who is he?"

Her mother saw by and by that it
meant "All my aunts and uncles,"
which if repeated quickly sounds
like "Old Man Snuckles."

MEANEST MAN FOUND.

"Old Man" Curtis, a character
long familiar to the people of New
Milford Conn., has been sent to the
poorhouse despite the fact that his
son, William Curtis, who lives near
there, is one of the wealthiest farm-
ers in the section and reputed to be
worth \$80,000. The son said that
he let his father go to the almshouse
because, when a small boy, his father
forced him to work and then took
every cent of his pay.

"Old Man" Curtis said his son was
"too mean to give him a meal with-
out making a fuss over it like it was
a million dollars."—New York

WILL RESTORE OLD CHURCH.

A 600-year-old church, that of St.
John the Baptist, in the county of
Ayr, Scotland, known as Fort Castle,
and which had been advertised for
sale and was in danger of demolition,
has been purchased for \$1,950 by the
marquis of Bute, who will preserve
it. The church was built in the thir-
teenth century, and in it the Scottish
parliament settled the succession of
the Scottish crown after the battle
of Bannockburn in 1314.

THREE GOOD RECIPES

CONSOMMES AS PREPARED BY A
RECOGNIZED AUTHORITY.

Rules That Must Be Observed If One
Would Have the Dishes at Their
Best—How Stock Should
Be Made.

(These recipes are from the notebook of Oscar Tschirky, for many years head of the culinary department of a leading New York hotel.)

Consomme Royal.—Beat two eggs and mix with them half a teaspoon of milk and one pinch of salt. Pour the beaten eggs into a basin with the milk, stand the basin in a larger one containing hot water, put this arrangement in the oven and bake until the contents of the small basin are firm. Take out and put the mixture in the small basin away to cool. When set cut into small pieces, pour over them one quart of consomme and serve.

Chicken Consomme.—Remove the fillet from a chicken and put the carcass with three pounds of fillet of veal into a stock pot, with two and one-half quarts of good stock; season with one-fourth of an ounce of salt and place the pot on the fire to boil. Add an onion stuck with two cloves, a small head of celery and two leeks. Continue to skim well as the pot simmers on the side of the fire for about three hours. Then strain the broth and clarify with the fillet of chicken previously removed. Strain once more through a cloth into a basin. This consomme should be colorless.

Consomme with rice and cream.—Remove the fat from two quarts of consomme, put in a stew pan and when at the point of boiling add four tablespoonfuls of ground rice previously moistened with a little stock. Boil for ten minutes and add one teaspoonful each of sugar and salt; boil again, and when the rice is quite done pour in half a pint of boiling cream.

Note.—This is my recipe for the consomme stock intended to be used in making the above soups: Cut finely a shin of beef, put in a stock pot with two scraped carrots, two peeled onions, three washed leeks, a few sticks of celery and a small bunch of parsley roots, all finely minced; add six cloves, one teaspoonful of peppercorns, a bay leaf and the whites and shells of six eggs. Moisten this with two gallons of broth and one quart of water. Stir for a few minutes, and, if convenient, add pieces of chicken or a few bones. Let this simmer on the range for four hours, skim off the grease, strain through a wet cloth, and you have the foundation for all consommés.—Chicago News.

"Huck" Towels.

"Huckaback" toweling is most in demand, yet very few know why it is thus called. It is so named from the weave, which throws up a little knot, or huck, in both warp and woof, making a slightly roughened surface, which is very much liked for absorbing moisture, says the Commissioner. The "bird's-eye" toweling is delightfully smooth and absorbent, and is much glossier and finer than the huckaback. If one has time and inclination, the toweling may be purchased by the yard and the hemming and marking done at home, giving them individuality; but nothing is saved. Twenty-four inches by forty-two inches is the size most liked, or 22x40, as one prefers. This for the family use, while the guest towel may be 15x24 inches, as it can be used once or twice, then thrown into the laundry bag.

Maple Sugar Cookies.

Cream together one scant cupful of butter, with three cupfuls of crushed maple sugar and add in the order mentioned two well beaten eggs, three-quarters of a cupful of sour milk, in which has been dissolved a scant teaspoonful of baking soda, and sufficient sifted flour to form a batter that will drop from the spoon. Allow plenty of space on the baking tins, as the cakes will spread when cooking and bake in a rather quick oven, until they are crisp and brown around the edges.

Fig-Pudding.

One-half pound of figs and three-quarters of a pound of sugar; add enough water to keep from burning and cook to a jelly. Mix together one cupful of chopped suet, one and a half cupfuls of flour, one tablespoonful of baking powder and a half teaspoonful salt; add sufficient milk to make a soft dough. Roll out the dough, cover with a layer of cooked figs and roll together like a jelly cake. Put into a bag and steam about three hours.

Curried Oysters.

Take two dozen oysters, one onion, one tablespoonful of curry powder, one dessert spoonful of flour, two ounces of butter and the juice of a lemon. Chop the onion up fine, mix the curry powder, flour and butter together and put all into a stewpan, simmering it till a nice brown and stirring all the time; add the liquor of the oysters and the lemon juice and boil for five minutes. Put in oysters, boil up once and serve with a dish of boiled rice.

Save Velvet Scraps.

Velvet odds and ends should never be thrown away, as a hundred and one uses can be made for them in the kitchen. If, when the kitchen range has been plucked and brushed, Wisconsin is well known as a product it is rubbed over with a piece of velvet, it will greatly improve the brilliancy of the polish. Old velvet is also splendid for polishing footwear and brass.

TO TAKE OUT STAINS

SIMPLE AGENTS THAT MAY BE
EMPLOYED BY HOUSEWIFE.

Good Idea Is to Have a Set of Rules
That May Be Posted In a Con-
spicuous Position About
the House.

It is hard for even the housewife of large experience to remember exactly the simple agents for removing various stains. Knowledge of the average maid or laundress is still more limited, hence a device which serves in one house as a constant jog to the memory. It is a set of rules printed upon a yard of the blackboard cloth used on schoolroom walls.

Instead of writing with chalk, print the rules neatly in the form of a table in white oil paint, thinned with turpentine. This medium, if properly dried, is permanent; it cannot be disturbed either by steam or by rubbing. After allowing it to dry for four or five days it may be tacked on the kitchen wall, inclosed in a frame of plain pine picture molding.

Here is a copy of the table for any one who may care to make one:

Ink Stains.—Soak in sour milk. If a dark stain remains, rinse in a weak solution of chloride of lime.

Blood Stains.—Soak in cold salt water, then wash in warm water with plenty of soap; afterward boil.

Grass Stains.—Saturate the spot thoroughly with kerosene, then put in the wash tub.

Iodine Stains.—Wash with alcohol, then rinse in soapy water.

Hot Tea and Coffee Stains.—Soak the stained fabric in cold water, wring, spread out and pour a few drops of glycerine on each spot. Let it stand several hours, then wash with cold water and soap.

Iron Rust.—Soak the stain thoroughly with lemon juice, sprinkle with salt and bleach for several hours in the sun.

Grease Spots.—Hot water and soap generally remove these. If fixed by long standing, use ether, chloroform or naphtha. All three of these must be used away from either fire or artificial light.

Pitch, Wheel Grease, Tar Stains.—Soften the stains with lard, then soak in turpentine. Scrape off carefully with a knife all the loose surface dirt; sponge clean with turpentine and rub gently till dry.

Mildew.—Soak in a weak solution of chloride of lime for several hours. Rinse in cold water.

Sewing Machine Oil Stains.—Rub with lard. Let stand for several hours, then wash with cold water and soap.

Scorch Stains.—Wet the scorched place, rub with soap and and bleach in the sun.

Fruit Stains.—Stretch the fabric containing the stain over the mouth of a basin and pour boiling water on the stain. In cold weather fruit spots can frequently be removed by hanging the stained garments out-of-doors over night. If the stain has been fixed by time, soak the article in a weak solution of oxalic acid or hold the spot over the fumes of sulphur.

Fricassee Chicken.

Fricassee chicken, considering what can be done with it, is not expensive. A three or four pound fowl cut into pieces, stewed and served with plenty of good cream gravy poured over toast or biscuit will be sufficient for six persons and, in addition, enough will be left for another meal of chicken pie or cream chicken.

Another good way is to steam it whole instead of cutting it into pieces. Then, when the chicken is tender, put two or three strips of bacon on top of it and place it in a hot oven until it is a light brown. Chicken prepared in this way will be as tender as a high-priced roasted chicken.

Cream of Carrot Soup.

Slice three medium-sized carrots and put in a saucepan with one cupful of water, a slice of onion and a bay leaf. Cover the pan and cook until tender, rub through a strainer, reserving the water in which the carrots are cooked, and then put the carrots and water over the fire. If the mixture is too thick, add a cupful of boiling water. Heat one and one-half tablespoonful of butter, adding the carrot mixture. Beat until thick and boiling. Just before serving add a level tablespoonful of salt, a little pepper, a cupful of hot milk and a half cupful of cream.—Woman's World.

Virginia Stuffed Ham.

Put one ham into boiling water and cook three hours; cool and remove the skin and bone. Make a dressing of a loaf of white bread, three onions (chopped fine), one tablespoon butter, one teaspoon each celery seed, sage and thyme, and a little pepper and salt. Make a deep incision in ham and remove the bone. Fill the cavity with the dressing. Sprinkle with brown sugar and bake slowly for two and a half hours. Baste with the liquor in which the ham was boiled.

Kitchen Keynote.

The filets of six anchovies, pounded with an ounce of butter, cayenne pepper and a little nutmeg, rubbed through a sieve, spread on thin crackers and heated in an oven, are fine to serve before a meal.

Egg Sauce.

One-third of a cupful of butter, two-thirds of a cupful of sugar and two eggs well beaten. Pour on this mixture one cupful of boiling water, flavor with nutmeg and vanilla and cook two minutes.

THE THRICE-A-WEEK EDITION

OF THE

NEW YORK WORLD

Practically a Daily at the Price
of a Weekly.

No Other Newspaper in the
World Gives So Much at So
Low a Price.

This is a time of great events and you will want the news accurately and promptly. The Democrats, for the first time in sixteen years, will have the Presidency and they will also control both branches of Congress. The political news is sure to be of the most absorbing interest. There is a great war in the Old World, and you may read of the extinction of the vast Turkish Empire in Europe, just as a few years ago you read how Spain lost her last foot of soil in America, after having ruled the empire of half the New World.

The World long since established a record for impartiality, and anybody can afford its Thrice-A-Week edition, which comes every other day in the week, except Sunday. It will be of particular value to you now. The Thrice-A-Week World also abounds in other strong features, serial stories, humor, markets, cartoons; in fact, everything that is to be found in a first class daily.

THE THRICE-A-WEEK WORLD'S regular subscription price is only \$1.00 per year, and this pays for 156 papers. We offer this unequalled newspaper and the Hopkinsville Kentuckian together for one year for \$2.65.

The regular subscription price of the two papers is \$3.00.

TYPICAL SCENE AT A REDPATH CHAUTAUQUA

THE forthcoming Chautauqua which is to be held here will be one of the big events of the season in this section of the state. The above photograph illustrates a typical crowd at one of the Redpath Chautauquas. There are today nearly 1,200 Chautauquas in the United States and Canada. In fact, the Chautauqua has become one of America's great institutions, and the idea has already spread to England and Japan. In 1872 there was not a Chautauqua in the world. In 1873 Bishop John H. Vincent and Lewis Miller inaugurated at the spot now called Chautauqua, N. Y., the original institution. Today Chautauqua, N. Y., is the summer center for 10,000 people, and its land, buildings and equipment represent a cost of millions.

But, although thousands of people go annually to Chautauqua, N. Y., from all parts of the United States, the great mass of American people would never get to a Chautauqua if they had to travel far from home. The recognition of this fact brought about the decision to take Chautauquas to the people everywhere. The movement a few years ago began to spread rapidly. Today there are operated from the Redpath headquarters in Iowa, Kansas City and Chicago nearly 600 Chautauquas. Only the best talent is engaged, as high as \$15,000 having been paid by the Redpath for a single attraction for the Chautauqua season. Every year the number of Chautauquas grows, and there are more requests annually from towns wishing to be Chautauqua centers than can possibly be granted.

GRADUATING EXERCISES

Miss Gary Won Great Success in First of Commencement Recitals.

Miss Elizabeth Gary won a great success Thursday evening when she appeared in her graduating recital in expression at Bethel College. The program showed well her versatility. Her child dialect, especially the selection "I Ain't Goin' To Cry No More," was an immediate favorite with the audience. "When We Haven't Said Our Prayers," with a musical accompaniment, was very artistically rendered. Miss Gary has a charmingly animated and gracious stage presence, and a smile which instantly wins her audience.

Miss Lowe's solos were greatly enjoyed, as was also Miss Garnett's rendition of MacDowell's "Woodland Sketches." Miss Patterson accompanied. This was the first of the commencement recitals and was under the direction of Miss Baker.

Bob Taylor Lives,

In the two bright and beautiful books just issued, "Lectures and Best Literary Productions," and "Life and Career" of Senator Robert Love Taylor, handsomely illustrated, you cannot hear again his voice or see the humorous curl of his lips, that convulsed a continent with laughter, but, within the covers of these volumes, are the pictures woven of his wondrous words, and, laughing through their sunny pages are all of the inimitable stories which he told to the multitudes. In "Life and Career," pens of genius have traced his romantic life from its morning in "Happy Valley," through his young and roseate dreams, through stress and storm, through cheering throngs, and on into the waiting shadows, loved and laurel-crowned.

We expect to sell millions of these books. First edition going fast. Cloth, \$2 the Volume, \$4 the Set. Half Morocco, \$2.75 the Volume, \$5 the Set, Full Morocco, \$5.50 the Volume, \$10 the Set. GOOD AND BAD NEWS

By Col. Hart On the Same Day Last Week.

Last week Col. Ike Hart, one of the new members of Gov. McCreary's staff, received a cablegram informing him of his aged father's death in Germany. Owing to the extreme age of Mr. Hart, 96 years, the cablegram was no great surprise to the Colonel, sad as were its contents. The second message was from George Hart, now living in Evansville, informing Col. Hart that he was a grandfather.

Petitions Filed.

The petition of the voters of the 2nd ward calling on S. G. Buckner to be a candidate at the primary election in August for councilman was filed in the office of the county clerk Thursday.

The petition for T. S. Winfree to be a candidate for nomination at the primary for constable was also filed Thursday.

GEORGETOWN GIRL

Miss Lois Finnell To Wed Young Banker of Paris.

The Louisville Times of Saturday contained a notice of the approaching marriage of Miss Lois Finnell, of Georgetown, Ky., to Mr. Fayette Ardery, a young banker of Paris, Kv. Miss Finnell is a young lady of unusual beauty and many accomplishments, who taught school in Bethel Female College last year and was quite popular in Hopkinsville society. The news of her engagement will be received with interest here.

Greater Than Voting.

"Ah, the greatest thing a woman can do for herself and for the world," says Sara Bernhardt, "is to be a

mother—no joy, no glory is so great; no art so productive of genuine happiness and meaning as that sweet thing a mother can look upon for the first time—the little pink and white bundle held in the nurse's arms—her baby."

Mme. Bernhardt, when asked the best time for a woman to marry, said:

"The earlier the better—let her marry her first love. A girl in her teens and early twenties, filled with the surmise of love and romance and ardor in the joy of being, makes an adorable mother—the best, Eugenics—bah! Love and youth are the best sort of eugenics. If the marriage does not remain happy, at least the woman has the consolation of her mission begun. She has the joy of motherhood. She has had the baby or babies, and with them she can grow less selfish and think less of her own personal unhappiness."

At the Infirmary.

The Infirmary is now about full, there being nine patients who have undergone treatment. The last one to enter was Logan Morgan, a lineman of the telephone company. He was operated on Friday for appendicitis. All the patients are getting along nicely.

BURGLARS

Make Big Haul From Store at Herndon.

The store of Mr. P. D. Dawson at Herndon was entered by burglars Friday night and a lot of merchandise, worth probably \$100, was carried off. The cash drawer of the postoffice of the same building was broken open also and the contents, consisting of some small change, was appropriated. Entrance to the store was effected by prizing open the front door.

Could Not Write

Versailles Kv.—Mrs. Elisha Green, of this place, says: "I could not write all the different pains I had when I first tried Cardui. I could scarcely walk. Now I am able to run the sewing machine and do my work; and my neighbors tell me the medicine must be good, for I look so much better." Cardui is a specific, pain reliever, tonic remedy, for women. In the past 50 years, it has been found to relieve women's unnecessary pains, and female misery, for which over a million suffering women have successfully used it. Try Cardui for your troubles. It will help you. At the nearest drug store. Advertisement.

NEW HEAD FOR SCHOOLS

**J. W. Marion, of Ga., Elected
Supt. and Old Teachers
Retained.**

PROF. CLARK GOING WEST.

**Ira L. Smith Chosen as Chair-
man of the Board
Trustees.**

When the Board of Trustees met
last Friday night to elect a superin-
tendent and teachers for the coming
year, H. H. Abernathy, the new
member, took his seat with them.
Mr. J. P. Braden was absent on ac-
count of illness, but sent in his proxy.

Prof. Davis A. Clark, was re-elec-
ted superintendent without opposi-
tion. Prof. Clark expressed his
deepest gratitude for his endorse-
ment by the board but declined to
accept on account of the illness of
Mrs. Clark, who has been in a hos-
pital in Louisville almost the entire
year. Prof. Clark expects to take
up his home in the West very soon.

The board then elected Prof. J.
W. Marion, who was recently elec-
ted superintendent of schools at Com-
er, Ga.

Prof. Marion is a Missourian by
birth and many years ago a teach-
er in Princeton Collegiate Institute,
a Presbyterian school. Judge W. T.
Fowler and Leonard E. Fowler, one
of the school board, were students
of Prof. Marion. He has not yet
signified his acceptance of the posi-
tion to which he has unanimously
chosen, but it is assumed that he
will, or he would not have allowed
his name to be presented.

Should he come he will bring with
him the highest recommendations of
many educational institutions over
which he has presided during an ex-
perience of nearly 35 years, he being
now in his 55th year. He has a fam-
ily and will move here about the
middle of July should he accept.

All the old teachers and principals
were elected for the new term, ex-
cepting the teacher of science, which
position will be filled later.

Following is the complete list:

Superintendent

Prof. J. W. Marion

Principals

Prof. M. L. Gorton, of the High
School.

Miss Lottie McDaniel, of the Vir-
ginia Street School.

Mrs. Sarah R. Moss, of West Side
School.

W. E. Gray, of Clay St. School.

Pete Edwards.

Miss Julia Arnold.

Miss Mary Penn.

Mrs. V. E. Watson.

Miss Eugenia Rawls.

Miss Virginia Tibbs.

APPLES FALLING

From Trees While Small To Be
Investigated.

Whilst the prospect for a big crop
of apples and peaches in this section
has never been more flattering than
at this time, yet the small apples are
dropping from the trees by hundreds
every day. Young peaches are also
dropping off. There is a cause for
this, and it should be looked into.
The Henderson Gleaner, of the 9th
inst., said that there is the same
complaint coming from the fruit
growers of that section and a meet-
ing had been called for last Satur-
day to hear Prof. Carmody, of the
State horticultural department, who
will be asked to make a thorough in-
vestigation and try to locate the
cause.

Miss Susie Rutherford.
Mrs. A. B. Boulware.
Miss Mary Etta Merritt.
Miss Emily Braden.
Mrs. Mary D. Calis.
Miss Ella Shadoin.
Miss Virgie Nourse.

Prof. Clark's departure will occa-
sion general regret and he has many
personal friends who deeply sym-
patize with him in the illness of his
wife, which makes a change of cli-
mate desirable. He has been here
four years, the last two years as
Superintendent.

The board of trustees, at their
meeting a week ago, elected the
teachers for the colored schools as
follows:

Fannie M. Postell, Principal.
Jennie L. Pool.
Virginia I. McNeal.
Cornelia Steele.
Lottie E. Dade.
Emma F. Major.
Rosa F. Major.
Fannie Robinson.
Bessie Moseley.
Anna Bell Buckner.
Louise Glass.
Corrine Hayee.
Bessie E. Walker.
Olivet Pool.
Willie L. Glass.

Dread Of An Operation

N. Manchester, Ind.—Mrs. Eva
Bashore, of this place, says: "I
suffered female misery of every
description. Two doctors attended
me, and advised an operation. I
lost weight until I weighed only
ninety pounds. I dreaded an opera-
tion, and, instead, began to take
Cardui. In a short time, I gained
25 pounds, and feel as well as I ever
did. Cardui, I am sure, saved my
life." Cardui is to day used in
thousands of homes, where it re-
lieves pain and brings back strength
and ambition. It is a woman's me-
dicine, for woman's ailments, and you
are urged to try it for your troubles.
Ask your druggist. He will tell you
about Cardui.

Louisville adopted a demand for one-
cent postage.

The following officers were elected:
Milton H. Sanchez, Lexington, presi-
dent; Paul Winn, Hopkinsville; J.
W. Graham, Paducah; George D.
Massey, Bowling Green; Bennet D.
White, Henderson; H. J. Wright,
Mayfield and Phil Dahl, Owensboro,
vice-presidents, and Carl H. Finch,
of Louisville, re-elected secretary-
treasurer.

15 YEAR OLD BOY

Arrested Here On Instructions
From His Father.

Clarence Fey, aged 15 years, joined
the Gentry show at Nashville Thurs-
day and came here with it Friday
morning. Friday night, on instruc-
tions from his father, the police took
him in charge and held him until
Saturday morning. His father, a
railroad engineer, came over and
took the boy home. The boy had
secured a place in the culinary de-
partment of the show.

Purely Personal.

P. P. Huffman went to Louisville
last week on a visit to relatives.

J. M. Bowling came over from
Clarksville in his auto Sunday and
spent the day with his mother, Mrs.
S. L. Bowling.

Mrs. Ritchie Burnett arrived Sat-
urday night from Texas and has
taken rooms and board with Mrs. Mon-
roe Bullard, South Main street.

Miss Katie McDaniel returned
from Elkton yesterday, where she
attended a missionary meeting last-
ing two or three days.

Geo. F. Catlett, editor of the
Princeton Leader, was in the city
yesterday on his return from Louis-
ville, where he and several other
Princetonians had gone to attend the
races on Saturday and see Louisville
and Indianapolis play ball Sunday.

Mrs. Stanley Long, of Hopkin-
ville, arrived Friday and is the guest
of her parents, Mr. and Mrs. Bland
Beverley.—Henderson Journal.

Rev. C. M. Thompson and Mr.
Bailey Waller left this morning to
attend the Southern Baptist Conven-
tion in St. Louis.

A. D. NOE III.

Handsome Young Visitor Ar-
rived at The Latham Sunday.

A. D. Noe III arrived via the stork
line and took up his quarters at Ho-
tel Latham Sunday morning about 3
o'clock. It is hard to tell whether
papa A. D. or grandfather A. D. is
the happiest. The boy is a bouncing
fellow and is making his presence
known in a many way, but it is not
probable that he will be able to go
to the baseball park this afternoon
and root for the Moguls.

ANCIENT CUSTOMS IN MALTA

Many Things Done in the Manner in Vogue Hundreds of Years Ago.

In Malta the customs of a hundred years ago are still in vogue. Take, for instance, their method of harvesting. Instead of cutting the wheat as in this country, the harvesters kneel down to their task and taking hold of the wheat pull it up by the roots, so that there is never seen in Malta a field of stubble.

The wheat is then taken to a corner of the field where there is a smooth circular patch of stones, usually about twenty feet radius, is spread over it to a depth of eighteen inches or so, and trampled on by oxen, a small boy usually leading them by a rope. When the process of thrashing is completed the straw is forked away and the grain swept up ready for the mill.

Another curious custom is their way of watering the roads. The water cart consists of a light kind of vehicle (dubbed by the military a five-barrel gate), which consists of nothing more or less than a pair of shafts with about eight hatters bolted across them, and a couple of diagonals to strengthen the whole.

On the cart is lashed a fifty-six gallon barrel, and a length of canvas hose about a yard long is connected to it, terminating in a sprinkler. The cart is always attended by two men, one leading the horse and the other taking hold of a couple of yards of rope, the end of which is fastened to the sprinkler end of the hose. As the cart goes along, so he follows, and keeps the sprinkler swinging from side to side.—Newark News.

GOLD JOKE.

The water has spoiled all the biscuits, half of which are nothing but a big lump of mildew, from which, however, we manage to pick out a few fragments which may yet prove eatable. The oatmeal has suffered less, but is perfectly green with age. The sugar has disappeared; the chocolate is also green and tastes of soap. However, we have found food, though not as good as we had expected, and we hope to be able to use the best of the biscuits, assuring each other that mildew cannot be poisonous. Iverson even goes so far as to declare it must be wholesome, being after all a sort of "green-stuff!"—From "Lost in the Arctic," by Eynar Mikkelsen.

QUICK ACTION.

"Did you do anything to try and save the professor when he fell off the observatory roof?"

"Indeed, I did. When I saw him going, I begged him not to take any precipitate action."

Accidents will happen but the best regulated families keep Dr. Thomas' Electric Oil for such emergencies. Two sizes 25 and 50c at all stores.

Made His Blessing Retroactive.

The father of a family who had been staving to bring up his children in the way they should go was very much annoyed at his son's uncouth habit of helping himself to a few bites before grace had been said. The stereotyped form called for: "A blessing on what we are about to eat," but one occasion being particularly exasperating, he astounded the young man by adding to his petition, "and on that which has already been eaten."

"Suffered day and night the torment of itching piles. Nothing helped me until I used Doan's Ointment. The result was lasting."—Hon. John R. Garrett, Mayor, Girard, Ala.

Courage Makes Success.

Many a man has dried up in a little wayside opportunity, merely because he lacked the courage to acknowledge to himself that his judgment had landed him in the wrong spot. Fortune disdains mere ability—brain is nothing without bravery. The man who can be thrashed by a sneer has retreated before he is defeated.—Herbert Kaufman.

Coming to Christian.

R. H. Kemp has taken an option on the "West Farm" six miles from Hopkinsville on the turnpike and will probably locate in Christian county. The land he contemplates buying is said to be a magnificent body of land and from all reports our friend Kemp has slipped upon a bargain. The purchase price is \$18,600 and will be paid cash as soon as the survey is made and deeds signed and delivered.

J. B. Kevil will accompany Mr. Kemp to Hopkinsville Friday to survey the lands and attend to the abstracts and other important details. Mr. Kemp will sell some of his fine farm near this city but will retain part of it and the house and improvements which will be occupied by his son, Ashley, probably. Mr. Kemp is one of our thorough going

business men and has been most successful here and we wish for him and his estimable family abundant pleasure in their new home, to which long years of honest toil entitled him to, and should they not find it there, invite them back to old Crittenden and the latch string will be found on the outside.—Marion Record Press.

Folk Dances a Feature of the

May Festival.

The time draws near for the May

Festival which will be given by the

children of the Virginia Street school.

For the first time the folk dances,

which are considered necessary to

every modern child's physical wel-

fare, will be presented to the peo-

ple of Hopkinsville by the school

children.

Folk dances have come to fill an

important place in physical training.

The range in character from the sim-

ple song game with its accompan-

ing action to the highly developed

collection of movements which are

not descriptive of anything in par-

ticular save the pure joy of life in

rhythmic exercise. In varying de-

grees are found the elements of

song, play, drama and vigorous mus-

cular work. They supply a charm-

ing addition to our physical training

from which large results can be ex-

pected.

The games and dances help to cul-

tivate a taste for wholesome, health-

ful, and rhythmical exercises.

JOHN STITES Of Hopkinsville Colony in Louis- ville, Successful Banker.

This week John Stites was elected
President of the Louisville Trust
Company, one of the strongest fi-
nancial institutions of that city. A
sketch of his business career since
leaving here and locating in Louis-
ville was published in the Courier-
Journal of Tuesday. Following are
some of the many things he has en-
gaged in:

Served as a school trustee; mem-
ber of the board of public safety;
director of the Bank of Kentucky;
vice-president of the Louisville Trust
Company; was a director of the
Fidelity Trust Company; director of
the Louisville Railway Company; the
Louisville Traction Company, the
Bourbon Stockyards Company and
identified with a number of other
financial and industrial institutions.
He is also a director and the treas-
urer of the Presbyterian Theological
Seminary, treasurer of the general
assembly executive committee for
ministerial education and relief.
He was also president of the Inter-
national Sunday School Association
from 1908 to 1911.

Electrical Definitions.

The almost universal adoption of
electricity as power in various estab-
lishments, brings into common use
words that have been manufactured
to explain certain things in electricity
that are not and cannot be used else-
where. The amateur is often puzzled
by some of the expressions of the
professional electrician. A short
dictionary has been prepared for the
assistance of those who are called
upon to deal with electrical matters
for the first time. Here it is:

Volt—The unit of pressure.

Ampere—The unit of quality.

Watt—The product of pressure

and quantity—the unit of power.

Kilowatt—1000 watts, or 1.34

horsepower.

Load-Factor—The ratio of the

actual use of energy to the maxi-

mum possible use, in any installa-

tion.

Maximum Demand—The greatest

demand made upon the central sta-

tion in a given time.

Commit these terms to memory

and you will find them very handy

the next time you are called upon to

talk business with an electrician.

HOW TO MAKE HEAD CHEESE

Nothing Hard About Operation, but
Certain Rules Are Well to
Keep in Mind.

Cut a hog's head into four pieces.
Remove the brain, ears, skin, snout
and eyes, cut off the fattest parts for
lard. Put the lean and bony parts to
soak overnight in cold water in order
to extract the blood and dirt. When
the head is cleansed put it over the
fire to boil, using water enough to
cover it. Boil until the meat sepa-
rates readily from the bone. Then
remove it from the fire and pick out
all of the bones. Drain off the liquor,
saving a part of it for future use.
chop the meat up finely with a
chopping knife. Return it to the
kettle and pour on enough of the
liquor to cover the meat. Let it boil
slowly for fifteen minutes to a half
hour. Season to taste with salt and
pepper just before removing it from
the fire. Turn it into a shallow pan
or dish. Cover with a piece of cheese
cloth and put on a board with a
weight to make it solid. When cold
it should be sliced thinly and served
without further cooking.

Housewife in Quest of Dessert Is Safe
If She Serves a Neapolitan
Pudding.

Peel about a cup of large chestnuts;
put them into boiling water for five
minutes; take off the second skin and
boil them again until they are tender;
press them through a sieve; cut a
quarter pound of candied fruits into
small pieces. Cook half cup currants
and half cup of stoned raisins in hot
water until plump; drain them through
a cloth; add one pint stiffly whipped
cream to a parfait made of six egg
yolks and one cup of sugar; turn this
into a freezer and grind until half
frozen; then remove the paddle and

THERE IS MORE PROFIT IN YOUR DAIRY

than you ever realized unless you are using a Dairymaid cream separator. The Dairymaid is the only successful chain drive machine on the American market today. The chain drive causes that smooth, vibrationless movement of the bowl which helps give the Dairymaid its close skimming qualities.

The oiling facilities of the machine are excellent. Every part of the mechanism, except the bowl spindle neck bearing, is oiled from an oil bath in which the gears revolve. The neck bearing is self-aligning,

non-adjustable, and trouble proof.

If you have been skimming by the old gravity method, or selling your milk, it is time to look for a bigger profit in your dairy.

When examining the Dairymaid separator notice these features:

- Chain drive, eliminating vibration.
- Power driven at the base.
- Six-piece frame.
- Efficient disk skimming device.
- Phosphor bronze bearings at all wearing points.
- Splash lubrication from oil bath.
- Trouble-proof bowl spindle neck bearings.

CHALLENGES BECKHAM

Congressman Stanley to Open
His Campaign Next
Monday.

HE WANTS A JOINT BEBATE

Promises Mr. Beckham to Pitch
His Campaign For Senator
On High Plane.

Washington, May 12.—Representative A. O. Stanley addressed a letter to former Gov. J. C. W. Beckham inviting his present single opponent in the senatorial race to divide the time with Mr. Stanley at Glasgow May 19. This will be the occasion when Mr. Stanley will open his campaign.

In his letter to Mr. Beckham Mr. Stanley, declaring that he agrees with the members of the Kentucky Press Association in resolving that party service and not personalities should be the issue between Democratic candidates, pledges himself that his campaign will be pitched on a high plane and says:

"I shall say nothing about you that I am not more than pleased to say to you, while at the same time affording you an abundant opportunity to expose or refute any inaccuracy then and there."

SHERWIN WILLIAMS PAINTS & VARNISHES

**If Your House Needs Painting
Use S. W. P.**

If your house, or barn, or buildings of any sort, need painting, don't put it off. Now—this spring—is the time to paint. A building that is kept protected from the weather, damp, sun and so on, will outlast by years a building that is allowed to go unpainted or poorly painted. It is much better business to save the building you have than buy a new one. And besides this, well painted buildings are much pleasanter to live in, and bring a much higher price if you should want to sell, than dingy, unpainted buildings.

To arrive at the cost of painting, figure the number of square feet a gallon will cover, and how long it will last, not what the paint costs a gallon. Don't simply figure what it costs to paint your house or barn, but what it costs to keep it painted year in and year out. S. W. P. is honestly made of the best raw materials obtainable, and will prove more economical and satisfactory to the man who pays the bill than either hand mixed lead and oil or the so-called "cheap ready-mixed paint." We are agents for Sherwin-Williams Paint, Prepared (S. W. P.) Come in and we will be glad to discuss the paint and varnish question with you.
